

The Power of Prevention

The doctors and staff of our full-service animal hospital know prevention is best in order to maintain optimum health. Our Wellness Package is designed to help you easily manage your pet's veterinary needs.

1. When our clients take advantage of discounted wellness care, our veterinarians are better able to detect diseases earlier when they are most treatable.
2. Wellness Plans allow monthly payments, making necessary care more manageable.
3. Your pet's health and comfort is our top priority. The discounts included in our Wellness Package are our way of thanking you for relying on us to help ensure a healthy, happy furry family member.

Our Wellness Package is intended to make routine health care convenient and affordable. It is not pet insurance. Ask our receptionists about pet insurance options which can help you prepare for unexpected injury or illness.

Wellness Packages

We know how important good health is for people and their pets. The goal of our pet wellness program is to prevent or minimize disease, improve your pet's quality of life, and help your pet enjoy a healthy life as long as possible.

Our wellness packages are designed to help make sure that your pet stays healthy by offering convenient, thorough, comprehensive care. Our packages make it easy for your pet to receive all their wellness care for the entire year!

Vaccinations

Vaccination protocols are customized based on your pet's lifestyle. Your pet will receive all recommended vaccinations which offer protection from serious contagious diseases. (Lyme vaccine and other non-core vaccines will be administered, if warranted, at additional cost.)

Parasite Testing

Our Wellness package includes an annual intestinal parasite screening and heartworm test (included in wellness blood work). Some intestinal parasites are contagious to humans and other animals, so the Center for Disease Control and the Companion Animal Parasites Council recommend regular intestinal parasite screenings. For further information, please visit www.petsandparasites.org/.

Wellness Blood Work

Our Wellness Package includes an annual blood panel to screen blood and organ health. The panel provides early detection of infection, anemia, clotting problems, and changes in organ function. Wellness blood work can help our doctors prevent your pet from becoming ill or hospitalized, and may prevent permanent damage from occurring. Treating problems early can help ensure a better outcome and lower medical costs.

Wellness Examinations

On average, pets age seven times faster than people, so health problems can progress quickly. Pets often don't show any outward signs of illness until the disease is in its advanced stage. The risks for cancer, diabetes, obesity, arthritis, heart disease, metabolic problems, and other serious conditions all increase with age.

Our Wellness Package includes two semi-annual comprehensive examinations. Regular exams allow your veterinarian to detect, treat, and prevent concerns before they become serious.

These visits are also a great opportunity for you to ask about pet behavior, nutrition, flea and tick control, and other issues on a regular basis.

Budgetary Benefits

It is challenging to budget for pet care. An adult dog's yearly wellness services could cost over \$600!

Our packages are discounted 20% so that you only pay \$42/month for cats, and \$44/month for dogs.

**A \$25 registration fee will be charged upon initial set-up and/or reactivation of any non-renewing packages.*

***Credit or Debit Card required for monthly payments.*

What is Included in our Wellness Package?

Your pet will receive:

- Two Wellness Exams
- Annual Wellness Blood Panel
- Intestinal Parasite Screening
- All recommended core vaccinations
- Two Blood Pressure Checks with Exams
- Heartworm, flea, and intestinal parasite preventative, plus tick control
- Cat patients will receive a urinalysis
- Dog patients will receive heartworm testing

Additional benefits!

You will also receive the following services for the duration of your plan:

- 25% off any other exam (sick animal or emergency)
- 10% discount off all other services and products (except food)
- Two complimentary nail trims or anal gland expressions
